Summary		Order confirmed with \$0 total and product removed from cart when user enters an excessively large quantity
Bug details	Preconditions	User is logged in
	Steps to reproduce	1. Navigate to the product page 2. Click "Add to Cart" button 3. Input more than 6 digits into the "Quantity" field 4. Click "Proceed to Checkout" 5. Click the "Payment details" 6. Click "Confirm" button on the details confirmation page ...
	Actual result	Order is confirmed with 0\$ total
	Expected result	Assert an error message indicating that the "Quantity" field contains invalid data
	Attachments	Screenshot: https://imgur.com/jKojJ5C https://imgur.com/CIXji0N
	Notes	This issue can occur intermittently when the user initially enters either a valid or invalid quantity, confirms the order, then navigates back and enters an invalid quantity again.
